## WINDOW SMASHING MILITANTS

**Arrested In London This Morning and Haled Into Police Court**

## HATCHETS AND HAMMERS

**Used in Breaking Every Pane of Glass on Ground Floor of Residence of the Home Secretary—Get Two Months Sentence.**

(ASSOCIATED PRESS TELEGRAM) London, March 14.—A detachment of militant suffragettes armed with hatchets and hammers, smashed every pane of glass on the ground floor of the residence of Reginald McKenna, home secretary, in Smith square, Westminster today.

The women arrived in the square in an automobile and took by surprise the policemen who kept continual guard over the homes of the state ministers. Six women who took part in the attack were arrested however, as they were leaving. Mr. McKenna left town for the week end yesterday.

The six women gave false names. They were later arraigned at Westminster police court and each sentenced to two months' imprisonment with hard labor. The policemen who had been on guard at Mr. McKenna's residence testified that the women "crept stealthily" in Indian file along the side of the wall and then made a rush for the windows.

One of the prisoners who gave the name Bonadice, said in court: "I wouldn't have given much for him—Mr. McKenna—if we had got inside."

Another of the women said: "It is a lucky thing for you we do not shoot. All the women pleaded guilty and said they had been driven to break Mr. McKenna's windows by 'the great brutality shown to our beloved leader'."

The magistrate in passing sentence said he had never heard a sadder or more deplorable story than that which had been told to the court.

"Rot," exclaimed one of the women. Mrs. Emmeline Pankhurst, the militant suffragette leader, was again released from Holloway jail today.

She had started a hunger and thirst strike immediately after her arrest on Sunday last, at Glasgow, and was in a very weak and exhausted condition. A demonstration had been arranged by the militant suffragettes outside of the prison, but this failed owing to the secrecy with which Mrs. Pankhurst was removed from the building. She was taken in a taxicab to a nursing home.

Suffragettes charge the police with brutal treatment of the militant leader at the time of her arrest in Scotland. Mrs. Pankhurst fell during the scuffle and the militant newspaper says the police threw her bodily into a cab where they allowed her to lie on the floor while they sat on the seats insulting her. An investigation of the incident is demanded.

## ARSON SQUAD BURN BUILDINGS.

(ASSOCIATED PRESS TELEGRAM) Birmingham, Eng., March 14.—A militant suffragette "arson squad" set the torch to the tennis clubhouse and grandstand at the Olton club five miles from this city early today. The building was burned to the ground.

## EMPLOYEES

**OF SIEGEL STORES WILL BE TAKEN CARE OF BY OTHER DEPARTMENT CONCERNS.**

Hundreds of Clerks Lost Not Only Their Positions But Savings in Defunct Bank.

(ASSOCIATED PRESS TELEGRAM) New York, March 14.—A little cheer came to the employees of the bankrupt Siegel stores here today with announcement that John C. Flinn would place as many as possible of the 2000 in the various department stores throughout the city in which he is interested. This announcement means that at least three large department stores will furnish positions to Siegel employees. It is expected that other merchants will likewise come to the rescue.

Hundreds of the store's clerks, it appears, besides losing jobs, will lose their savings. They were depositors in a small way in the defunct Siegel bank, their accounts averaging from \$25 to \$200. Moreover, the sick benefit fund of the two stores is swallowed up in the crash. Employees contributed two per cent. of their salaries to this fund.

## AGED BISHOP DEAD.

(ASSOCIATED PRESS TELEGRAM) Trenton, N. J., March 14.—The Rt. Rev. John Scarborough, D. D., protestant Episcopal bishop of New Jersey, died at his home here today after a short illness. He was in his 83rd year.

## Minority Report Is Made To Congress on the Sims Panama Tolls Repeal Bill

(ASSOCIATED PRESS TELEGRAM)

Washington, March 14.—Vigorous denunciation of the Sims bill, which he characterized as a notice to the world that the United States had abandoned its policy of an American-controlled Panama canal and virtually surrendering its power to regulate its commerce because of the new "peace-at-any-price" policy, featured a minority report to the house today by Representative Knowland of California, against repeal of the tolls' exemption clause of the Panama canal act.

The interstate commerce commission of which Mr. Knowland is a member, has favorably reported the Sims bill, proposing a flat repeal. The Knowland minority report said, in part:

"A situation unparalleled and unprecedented in history now confronts this nation. The passage of the bill would give a British interpretation to the Hay-Pauncefote treaty, and thus surrender for all time rights vitally affecting this nation, commercially, strategically and politically."

"Thousands of patriotic American citizens insist that we cannot maintain our national honor in the present controversy if we abjectly surrender every American right at Panama. This history of the country would have been less glorious had we failed to urge our contentions even when fully convinced of our right. When the Venezuela question stirred the nation, it was a mistake, according to this new 'peace-at-any-price' policy, for President Grover Cleveland to have declared in a message that commanded the respect of the world."

"Today the United States is practically sovereign upon this continent and its flat is law upon the subjects to which it confines its interposition."

The report warned the interstate commerce commission and the members of the house that by the provisions of the Sims bill, it would forever foreclose the right of the United States to pass through the canal, without payment of tolls, either battleships, revenue cutters, colliers, transports or other government owned craft.

The fact that the Supreme court rendered a decision which sustained the contention that the provisions of the Hay-Pauncefote treaty are not applicable to vessels in the coastwise trade was cited as an additional argument against the repeal of the tolls provision.

Representative Lafferty, of Oregon, in his report, said there was no doubt but that any arbitration court would support the American contents of the tolls controversy.

"It is clear from the most cursory consideration of the matter," he said, "that the president has made a mountain out of a mole hill in appearing in person before congress and directing the attention of the world to his declaration that unless congress surrenders what appear to be our plain rights he will not know how to get along in the future."

Should the short ballot be adopted in all municipal elections, with the maximum number of offices to be filled at any election fixed at five? Most certainly not, says the Zanesville team of the Central Ohio Debating league. And that settles it, according to the judges.

The large high school auditorium was packed with an enthusiastic audience, high school pupils occupying the balcony. The stage was nicely decorated with potted plants, ferns and high school pennants and before the opening of the debate the rooters gave the numerous class yells.

At the conclusion of the sixth annual debate between Newark and Zanesville high school teams here Friday night, the committee of judges determined the outcome of the argument in favor of the negative, which was upheld by the visiting team from Zanesville. The decision was not unanimous, however, and this fact proved a basis of hope for the Newark debaters, who put up a strenuous argument and pumped counter-queries and fast replies at their opponents up to the last word of rebuttal.

Zanesville won from Mt. Vernon in Zanesville unanimously, and from Newark in the high school auditorium two to one. Mt. Vernon won from Newark in Mt. Vernon unanimously.

The Zanesville team, however, showed their smart training and ease in argument, clinching their points as they proceeded, and winning recognition from the audience almost equal to that shown the home speakers.

Hon. H. K. Jewell, Common Pleas judge, of Delaware, Prof. Francis W. Coker, O. S. U., and Hon. John A. Smith, of the attorney general's office, of Columbus, were the judges. Their decision came within ten minutes from the conclusion of the debate, and was followed by plenty of "rah rahs" from the enthusiastic Zanesvillians, who, prior to announcement of results, had been landed in yells from the N. H. S. crowd.

Hon. Edward Kibler presided. Each speaker was given ten minutes on direct argument and reply, and five minutes on rebuttal.

Newark's team consisted of Miss Grace Doyle, Miss Florence Duthmer and Leland Stevenson, while Zanesville was represented by Miss Vitus Mulvey, Bernard Mechleng and Ralph Mast.

Miss Doyle was Newark's first speaker. She outlined the need of reform in the electoral system in municipalities in eliminating bossism, graft and corruption, and declared that unintelligent voting was largely credible to the numerous candidates appearing on the ticket. She contended that the short ballot would offer a better opportunity for centralizing responsibility for the management of affairs of government.

## SAFE BLOWN

**BY FIVE ROBBERS WHO DISCARD \$40,000 IN SECURITIES BUT TAKE CASH.**

Three Watchmen of Furniture Company Bound and Gagged While Nitroglycerine Is Used.

(INVESTIGATOR'S AND OBSERVER'S) Chicago, March 14.—Five armed robbers broke into the mail order branch of the Hartman Furniture Co. at 2912 Westworth avenue early today, blew open the office safe, threw aside valuable securities, discarded \$40,000 in money order and escaped with \$15,000 in cash, the weekly pay roll of the company. Leaving a guard outside, the four attacked, bound and gagged a watchman in the basement. A second and third employee of the furniture company were surprised and bound and gagged. The robbers then blew off the safe door with nitroglycerine. Failure of the watchmen to make their hourly report on the burglar alarm service wires prompted a telegraph company to send one of its watchmen to the building. The outside guard covered him with a revolver and escorted him within the building where he was also bound and gagged and left with the three Hartman watchmen

Work will commence about May 1 on paving of the National pike through portions of Licking and Muskingum counties. The contract will be let in Columbus April 15 for a 24-mile stretch of the highway, completing it from Zanesville to a point near Hebron. This information was imparted to county commissioners late Friday in a visit from State Highway Commissioner Jas. R. Marker and First Deputy Shoemaker, of the same department, who returned Thursday from Washington, where a conference with federal authorities brought the positive assurance of the promised federal aid in the form of a signed contract.

This means that Licking county will have completed by December 1, this year, fourteen miles of the finest stretch of pike in the state.

However, the hope that a sixteen foot roadway would be allowed was not realized. According to the terms set forth by the federal authorities the highway will be fourteen feet in width, of concrete, instead of brick, as at first proposed, and with an earthen berm on either side for use in good weather for travel.

It is expected many bidders will be on hand in Columbus when the contract is awarded as it will be one of the highest jobs in the history of the state. Owing to the fact that part of the work is in Muskingum and part in Licking county, two contracts will be required.

The total cost of the pike improvement is estimated at \$440,000. The federal government gives \$120,000. Licking county gives \$140,000. Muskingum county gives \$100,000 and the state will take care of the remaining \$80,000 out of the one-fourth of one-half mill levy of the Hite road law appropriation for direct market roads.

The contract by which the federal government, state and counties are leagued in the big job was entered into at Washington this week by State Highway Commissioner Marker, the director of federal offices of public highways, and the fourth as-

second edition of the Booklovers' Contest catalogue is now ready. All who desire copies of this book to assist in solving the Advocate pictures may now obtain them at this office. The price is 25c or by mail 27 cents.

The number just beginning to study the pictures was greater today than at anytime in the past two weeks. People in every section of the limited contest territory are writing or sending for coupons, catalogues and papers. Many are learning every day that it is perfectly easy to start in the contest now. The 136 papers are free. They are worth almost \$4,000. Send for the back coupons and a catalogue and order the paper sent to your address. That's all anyone has to do. Don't let any body tell you that it is too late because it isn't.

## THE LOCAL DECISION

**On Adoption of the Short Ballot in All Municipal Elections Was Not Unanimous—Big Crowd Present Was Highly Entertained.**

## Advertisers Kindly Notice

All display advertising copy must reach this office by 10 a. m. on the day of publication. All display copy for 40 or more inches of space must be in the Advocate office the preceding night. Locals or reading notices and classified advertising will be accepted up to 2:30 p. m.

This rule has been put in effect in the interest of advertisers and SUBSCRIBERS alike. Subscribers want to receive their papers at the right hour and the advertising, in order to produce the best results, must reach the readers at the proper time. The advertisers should be just as anxious to have the subscribers served promptly and regularly as is the Advocate itself. It is to the advertisers' interest to have the Advocate go to press on time and be delivered to subscribers on time.

If the advertising copy is late, the paper is necessarily late, trains to nearby towns are missed and the advertisers, the subscribers and the paper all suffer alike.

This newspaper desires to show every patron, advertiser as well as reader, every possible courtesy but declining to accept advertising copy in conflict with this established rule is not a lack of courtesy.

The Advocate's circulation is so large that it is absolutely necessary for the paper to be on the press at 3:30 p. m. in order that the readers may be properly served and in order to go to press on time every day, all display copy must reach this office by 10 a. m. The earlier the better for all concerned as "early" copy can be given more careful attention by the printers.

Advertisers will greatly favor the Advocate by sending their copy in as early as possible and in so doing they will help themselves by enabling this paper to place THEIR advertisement in the home of readers at a seasonable hour. A paper that is late is not carefully read and advertising in such a paper is not worth as much as it is in a newspaper that goes into the homes on time.

## Council Will Take Action On the Subway Bond Issue At Meeting Next Monday Night

A member of the city council said Saturday morning that there would be no hitch in the necessary proceedings in that body to pass the necessary legislation next Monday night, to conform to a recent decision of the Ohio Supreme court, in the sale of the \$240,000 bonds authorized by a vote of the people last November, and provided for in an ordinance of council passed Dec. 1, 1913.

The court decision above referred to, necessitates that some supplemental or remedial legislation must be passed by council to make the proposed sale legal at every point. It was expected that action would be taken at the last meeting, and no good reason was forthcoming why it was not done, at least sufficient to satisfy persons interested in the sale of the bonds and the beginning of the work at the earliest possible moment.

A prominent Republican said to a member of the council after the last meeting, when an evasive answer was given to the question as to why action was not taken:

"Well, remember over two-thirds of the people of Newark voted for that bond issue, and someone will be held responsible if it is not done at the meeting March 16. These people who voted for the issue also elected you and others to the council expecting that all necessary legislation should be passed. These people will stand no dilly-dallying, no apathy which will allow the time to pass until it is too late to do it before May 1. They have a right to know, and WILL KNOW who is responsible for any delay in the matter."

"The remedial legislation has been authorized by the legislature, the city solicitor has the syllabi of the Supreme court's decision, and it is now up to the council, under his advice to pass this supplementary ordinance making everything legally 'tight,' so that the bonds can be properly advertised, sold and the money put in the city treasury."

Some talk must have resulted among the Republican members who constitute a majority, as the Advocate learns the ordinance has been or will be prepared by Solicitor Ralph Norpell and will be fathered by one of the councilmen-at-large.

City Auditor A. Nelson Dodd said Saturday:

"I would like to see the ordinance so constructed and passed if it can be done, that only a portion of the \$240,000 bonds be sold at once. It seems to me that if this plan be followed it would be advisable as it looks like poor business policy to sell the entire block and pay interest upon money the city does not need and cannot use at one time. If it would be divided into blocks the city could get the money in parts, and avoid paying interest on the whole amount."

The original authorizing ordinance of December last, describes the bonds as being divided into 240 bonds of \$1000 each drawing five per cent interest and maturing as follows: 24 in 19 years or May 1, 1933, and 24 on the 1st of May each year after until 1942 inclusive.

Work will commence about May 1 on paving of the National pike through portions of Licking and Muskingum counties. If any one of the five answers that may be given to any picture is correct, the contestant will be credited for the correct solution and will not have the incorrect ones counted against his or her chances.

Prizes will be awarded to every contestant by the Contest Judges, who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 250 for supplying the 70 correct answers.

If two or more persons supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared, in the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 70 or more than 250 coupons, with accompanying pictures.

Positively no solution may be sent in to the Contest Editor until every one of the seven pictures has been printed. Answers in complete sets, as just specified above, will then be received in this office, and should be addressed to "Contest Editor," Booklovers' Contest, Advocate, Newark, Ohio. The awards will be made strictly according to the correctness of each set of answers and the correctness shall be

## PHOTO DRAMA OF CREATION

Tomorrow will be the last opportunity afforded Newark people to see the great religious-scientific drama which is being presented at 3 and 8 p. m. each day in the High school auditorium by the International Bible Students Association.

Part one is being shown this afternoon, and a large number of the school children are present, besides the usual afternoon turnout of older ones. Part two will be on this evening at 8 o'clock, and children unaccompanied by their elders will not be admitted to the auditorium this evening, nor at either presentation on Sunday.

Part three will be shown tomorrow at 3 in the afternoon and again at 8 o'clock in the evening. This part begins with Daniel and his experiences while in Babylonian captivity thence up to Jesus birth. The Star of the East is seen moving in the heavens, the wise men following it to Bethlehem. The shepherds watching their sleeping flocks on the hills of Galilee is then shown. Suddenly an angel appears to them; they fall down in fright until assured that they should "fear not"; that the message was one of good tidings of great joy, and that it should ultimately be unto all people. Then shepherds, wise men and others follow the star and come into the place where the babe lay in swaddling clothes in a manger. Rich presents are bestowed upon him.

Jesus' baptism. His anointing, miracles and many experiences are shown, and numerous of His parables are explained. Later Jesus is shown before the high priest, then Pilate, then Herod, and back again to Pilate. "Ecce Homo." "Behold the Man," cries Pilate to the infuriated mob, but they shout all the louder, "crucify him," crucify him. Pilate washes his hands, turns Jesus over to the soldiers, who to some extent protect him from the indignities of the fanatical mob. The journey to Calvary, and the crucifixion are then shown.

## NECK AND NECK RACE AT Y. M. C. A.

The four teams now getting members in the Junior department of the Y. M. C. A., are very evenly matched as to ability to get members. At the hour for the Junior classes this morning it was an interesting sight to see boys bringing in their friends. Ten new members were signed up in a half hour. The teams led by Herschel Stephan and Frank Spencer are in the lead today. Stephan's team having only two points lead of Spencer's.

The boys' meeting tomorrow afternoon is being planned to get in touch with other new boys. Every boy over ten years old is invited to this meeting.

## FIFTY-THREE MERCHANTS TAKE DINNER

At Warden Hotel Friday Night and Hear Address of George W. Gillette of Columbus.

Exceptionally successful was the dinner given at the Warden hotel by the Merchants' Association to the merchants of the city. Fifty-three were present and the program was featured by the address of Mr. Geo. W. Gillette, general secretary of the Chamber of Commerce of Columbus. Following Mr. Gillette's talk a number of the local merchants gave short addresses.

The dinner was served in the large dining room, and the tables were prettily arranged with fern leaves and pink carnations. At each place a pink carnation was placed as a favor, and a menu of five courses was served. Mr. A. R. Lindorf was chairman of the meeting and the first person introduced was Mr. Gillette, who has been very successful in organization and perfecting of a Columbus association. He divided his address chiefly into three parts: trade extension, trade abuses and merchants' credit. Mr. Gillette was followed by Messrs. R. W. Smith, F. D. Hall, David Metz, T. M. Edmondson, W. H. Masey, David Manning and J. M. Mitchell, who read a paper prepared by Mr. Roe Emerson, who was unable to be present.

The Newark association which is in its infancy, is being perfected with the idea of protecting the merchant and establishing universal trade conditions. Fifty-three merchants were present at the banquet on Friday evening and many new members were taken into the organization.

## ELLIS ACCEPTS A SENTENCE OF FIFTEEN YEARS

(ASSOCIATED PRESS TELEGRAM)

Chicago, March 14.—William Cheney Ellis, Cincinnati leather merchant, convicted of killing his wife, accepted a sentence of 15 years in the state penitentiary today without making an effort to get a new trial. Formal motion for retrial, made by Ellis' counsel, was withdrawn and Judge Pett imposed the sentence set by the jury. The imposition of the sentence by Judge Pett was marked by a denunciation from the bench directed at Ellis' counsel, whom he accused of "abandoning his client at a preliminary stage of his fight for life."

Judge Pett directed Stephen Malato, assistant state's attorney to investigate the conduct of Dr. Thomas Hogan, jail physician, who testified for Ellis.

"The action of Mr. Remus in withdrawing his motion for a new trial speaks volumes and has sinister significance," said the judge. "It seems that he believes the testimony of his own medical witnesses to have been without foundation. Each of these alienists testified that Ellis was insane when he committed the crime, and hence had no power to choose between right and wrong."

## THIS JUDGE HOLDS FREE LUNCH LAW UNCONSTITUTIONAL

(ASSOCIATED PRESS TELEGRAM)

Cincinnati, March 14.—Judge Alexander in the municipal court today declared that the anti-free lunch law is unconstitutional. He sustained the demurrers presented last Wednesday attacking the law. Payton, saloonkeepers, with whom the law was charged, are giving away as much as a half pound of food on each day. In July of 1913, the law was constitutional, and the same month Judge Wade in city held it was unconstitutional.

## BIG MONEY TO RITCHIE FOR BOUT

## NEWARK MAN ARRESTED AT CHILLICOTHE

Claiming his home as Newark and that his father is a physician here, Otto Smith, arrested at Chillicothe, caused the police department of both cities several hours of investigating before the details of his story were proven untrue. Otto was held for the theft of a watch. He claimed that he was one time a railroad detective here and that he was the son of a local physician. Police Chief Sheridan made an investigation at the request of the Chillicothe police and proved the young man's assertions to be false.

## FIGHTERS MAKE UP BIGGEST PART OF POLICE COURT

Saturday's session of police court was made up largely of drunks who had the additional charge of fighting placed against their names on the arrest record. Albert Hargraves and Alva Ravencraft were held on a charge of engaging in a fistfight in West Main street about 5 o'clock Friday evening. They each drew fines of \$5 and costs and were ordered committed to the county jail until the amounts were paid.

Another man was arrested in an East Main street saloon on a charge of drunk and disorderly and he drew a similar sentence. G. B. Kliver, arrested for fighting, drew a suspended sentence of \$10 and costs, on condition that his future behavior escape the eagle eye of the police department.

Two men arrested for investigation were able to present a clean slate and were allowed to go, one of them, a transient, was told that his room in the city was more desirable than his company.

## WAS TOO ILL TO OBEY COURT ORDER TO GO TO CHURCH

Lemuel Smith, whose sentence was suspended in police court Friday on condition that he attend revival services, failed to comply with the conditions of the sentence. He made the excuse to the police that he was too sick to attend church. It is probable that the suspension of the sentence will be revoked.

Smith was the third prisoner this week to violate the conditions of suspension of Mayor Bigbee's sentences. John Schraner failed to keep an engagement to attend church and Granville Elben did not take a coal mine job as he promised to do.

## ELBEN FAILS TO KEEP PROMISE; HE GOES TO WORKS

Edward "Granny" Elben, who drew a suspended workhouse sentence Wednesday on condition that he take a job in a Steubenville coal mine, will go back to the work house where he was released last Monday. He failed to keep his promise made to the Mayor when the sentence was suspended. Friday afternoon Elben was arrested on a charge of being drunk. He was not arraigned before the mayor on the charge but the suspension order of last Thursday was revoked. Elben will go back to the works Monday afternoon.

## NEW COURT ROOM AT CITY PRISON IS USED TODAY

Repairs on the city prison building have been completed, the work including the repair and renovation of the court room where sessions of police court were held in years past. Saturday morning for the first time in several years, the police magistrate presided from a bench, like any police judge should do. Heretofore, the police court sessions were held in the office of the prison keeper.

## WONDERFUL CURE OF SCALP DISEASE

Hair Came Out in Patches, Goodhair Soap Brought Prompt Relief.

"I have had Eczema on my scalp for twenty years. Have doctored with several doctors, but with no permanent good results. The first time I used Goodhair Soap my hair came out in patches as large as a silver half dollar. I was scared and thought I wouldn't have any hair if I continued to use the soap. I was told it was only the dead hair that had come away. I continued to use the soap, and now, after three months, all those bald patches are covered with a good growth. My hair is better than ever. I have no Eczema, and my scalp never itches." Yours respectfully, HENRY STEFFE, Utica, Ohio.

"I have used Goodhair Soap for the cure of dandruff and falling hair. I think it an excellent article for the purpose intended."

DR. W. T. RANKIN, 127 E. State St., Columbus, O.

"I have had an eruption of the scalp for the past 15 years. Have tried all the popular remedies, and have found none to give relief, and cure until Goodhair Soap was used. Can say that I consider it the best scalp and skin curative soap on the market."

W. S. ANDERSON, Druggist, Newark, Ohio.

# BLACK OF NEWARK AND PROUTY OF GRANVILLE WILL BE SEEN IN BIG REDS LINEUP FOR LAST TIME THIS EVENING

BLACK, Right Forward.

W. J. LIVINGSTON, Coach.

CAPTAIN PROUTY, Center.

Granville, March 14—If Denison wins from Wooster this evening they will also win the intercollegiate basketball championship of Ohio. The game with the Presbyterians tonight will close the season for Denison in basketball. A loss tonight will give the state title to Oberlin, who lost but one game during their conference schedule.

However, the indications are that Denison will not lose, but they will not have an easy contest as Wooster has been working hard for the game and is in excellent condition. All the members of the Baptist quintet are in good condition and are anxious for the final test which will like-

ly give them an undisputed claim to the championship.

Two veterans will play their last game in a Denison uniform; Black, the best forward in the state, and Captain Prouty, who has played a sterling game at center for the past three years will play their farewell game tonight.

For three years these two men have formed the nucleus for Denison basketball teams. Both have been given recognition in Ohio newspapers in selecting the all-Ohio basketball quintet. Last year Black was given a position on the first team while Prouty was placed on the second squad.

There will not be any change in the lineup this evening. Black and Thiele will play the forwards, Captain Prouty will play center, Reese and Jones will play the guards.

Denison won the state championship last year and to repeat the performance this year will certainly be a wonderful achievement, especially when it is considered that Ohio develops the highest class teams in the country. The feat of winning from the world-renowned Buffalo Germans gives Denison greater prestige than ever.

The game will be called at 8 o'clock, the doors of Cleveland hall will open promptly at 7 o'clock.

## \$60.00 BLISS SCHOLARSHIP INCREASED TO \$72.00 IN BOOKLOVERS' CONTEST

**THERE'S MONEY IN A BUSINESS EDUCATION! START NOW!**

One of the most talked-of prizes in the Advocate's Booklovers' Contest is the Commercial Scholarship in Bliss College. This appears in the prize list as a \$60.00 scholarship but it has been decided to increase this to a \$72.00 scholarship which will include all the necessary text books, etc., so that the lucky winner of this splendid prize will have no expenditures to make in order to get the full benefit of this prize. This \$72 commercial scholarship was purchased of Prof. C. Worstell, manager of the Bliss Business College and consists of a day scholarship in a commercial course including Bookkeeping, Business Organization, Banking, Wholesale Work Corporation, Penmanship, Commercial Arithmetic, Spelling and English, Business Efficiency and Salesmanship. Should the winner of this prize prefer the night school he or she can have twice the branches and include Type Writing, Shorthand or Stenography and Mimeograph as the night rates at Bliss college are just half the day rates. That the business men of Newark appreciate Bliss College is shown by the fact that nearly every business house in Newark including three banks have in their employ Bliss College graduates.

Under the efficient management of Prof. Worstell who came to New-

ark five years ago to take the management of this college the enrollment has almost doubled. The fact that Mr. Worstell has not only studied and taught business principles but he has had years of experience in actual business, has had much to do with the splendid success of this college. There is no better equipped business college in the state and it is located right on the square at 13 1/2 South Third street. Every young man and woman who are ambitious of increasing their earning capacity can find at Bliss college an unequalled opportunity. If they would only work half as hard to prepare themselves for a good position as they often do to secure a poor one, good jobs would be seeking them.

Many business men who wish a more thorough knowledge of the up-to-date methods of commercial business, take the night school course with most gratifying results. Prof. Worstell is a man of unusual ability in this line of work and not only takes a keen interest in the progress of his students but finds positions for them later.

What could be more appreciated than this splendid \$72.00 commercial scholarship in the Bliss College. It's not too late to start this Booklovers' Contest. Get the back coupons and begin now.

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. Agents, Hall's Drug Store.

### Snakes In Ireland

**Inquisitive Man Wanted to Test Truth of St. Patrick Legend.**

IN 1831 Mr. James Cleland, an Irish gentleman, being curious to ascertain whether or not the climate or soil of Ireland was naturally destructive to the serpent tribe, according to the legends related of St. Patrick, purchased half a dozen of the common harmless English snakes in Covent Garden market and took them to Ireland and turned them out in his garden at Rath-Gael, in the county of Down. A week afterward one of them was killed at Milcross, about three miles distant. The persons into whose hands this strange monster fell had not the slightest suspicion that it was a snake; but, considering it a curious kind of eel, they took it to Dr. J. L. Drummond, a celebrated Irish naturalist, who at once said the animal was a reptile and not a fish. The idea of a "male living serpent" having been killed within a short distance of the very burial place of St. Patrick caused an extraordinary sensation among the country people.

The most absurd rumors were freely circulated and credited. One farseeing clergyman preached a sermon in which he cited this unfortunate snake as a token of the immediate commencement of the millennium, while another saw in it an omen of the approach of the cholera morbus. Old prophecies were raked up, and old parties and sects for once united in believing that the snake foreshadowed "the beginning of the end," though they very widely differed as to what that end was to be.

Some more practically minded persons subscribed a considerable sum of money, which they offered in rewards for the destruction of any other snakes that might be found in the district. And three more of the snakes were not long afterward killed, within a few miles of the garden where they were liberated. The remaining two snakes were never very clearly accounted for, but, no doubt, they also fell victims to the reward.

### COMPARISON OF THE FRENCH NEWSPAPERS WITH THE GREAT DAILIES OF AMERICAN CITIES

(J. A. Ward.)

"Frankly, the most disappointing thing about New York has seemed to me to be its newspapers." This interesting statement was voiced recently by Paul Reboux, a French journalist serving on the staff of le Journal of Paris.

As a literary critic Reboux has few equals in France, but he has risen to fame chiefly because of the originality of his presentation rather than by the value of his criticism.

The actual cause of such a statement is probably due to the training which Reboux has received in his earlier years. If he had been reared in the United States his ideas would likely contradict and he would criticize the French newspapers as severely as he is now criticizing the American newspapers.

American newspapers are designed to give all local information at a glance, according to French conceptions. Directly opposed to this is the extreme conventionality of the French newspaper in which sensational articles are suppressed as literary works are the features of the daily paper.

Parisian papers do not have a large Sunday issue. Instead, the size is uniform, twelve pages being the standard maintained. Four pages are devoted to literature, such as editorials, special articles and interviews. Three pages are all that are necessary for news matter. If this plan was utilized by our great American dailies it would require that the large glaring headlines would have to be abolished. The French consider the heavy black-typed heading as absurd and a waste of valuable space.

In Paris there are three general classes of newspapers: literary journals, political journals, and personal journals. Literary journals, although they enjoy a large circulation, exert very slight influence over political affairs. The Temps, and the Journal of Debate reflect the standing of the great political parties and also the attitude of the French government in domestic and foreign affairs. Political journals are used by aspiring politicians to further their causes and although they generally serve the purpose the dividends derived are comparatively small.

To give an idea of the news which influences the Parisian dailies the instance of the death of Paul Desroulede, a national figure of importance in France, may be cited as an example. Three and a half columns were printed in the Journal, but reason for utilizing so much space contrary to the French newspaper principles is, that the article was written, not by an ordinary reporter in the American fashion of news writing, but a pen picture was drawn by a master hand which will be remembered by those who read the story for a number of years.

"Your American reporter is not actually dramatic, or tragic. He does not appeal strongly to the emotions." Is another criticism of Reboux. This is more or less true, the literary abilities of our writers are cramped and severely hindered by newspaper etiquette, except in the case of the Sunday feature section of an occasional story which finds its way into the columns.

To illustrate the engraving of the French for literature it is found that the "Echo de Paris," after adding one of the noted French writers to its staff increased from a circulation of 30,000 to 350,000. This principal is enforced by all Parisian dailies.

Even the society columns are abolished. They are considered as important to no one other than the hostess and for this reason space used for party notices and fancy balls is classified as advertising and payments must be made exactly as if the fact was published that such an actress owes her beauty to so-and-so's face cream.

Another distinctive characteristic of the Parisian paper is the neutral stand taken on political discussions. It is the aim of the papers in general to reflect the opinions of both parties in similar proportion.

No doubt there is considerable grounds for fault finding with the characteristic American daily. Too much space is given to sensations rather than to real live literature which is an important factor in molding the character of the American youth and also to exert a wholesome influence over the older generation.

There is one American plan newspaper in Paris known as Le Matin. It has a circulation of 660,000 copies, but this is nothing unusual for France. Le Journal has a daily circulation of 1,200,000 and there are numerous others which print more than a million copies per day. This is the real test for the success of a newspaper, declares Reboux. Is it?

## LITTLE DISCUSSIONS OF LOVE AND MARRIAGE

BY BARBARA BOYD

### The Managing Husband.

"I heard a man in a shoe store say something today that just delighted me," remarked the Clubwoman. "What was it?" asked the Frivolous Young Thing. "A man and wife came in to buy the wife a pair of shoes."

"Wasn't it dear of him," cooed the Frivolous Young Thing, "to come with her to buy her shoes? When I'm married I hope my husband will always go shopping with me."

"Maybe you'll change your mind when you hear the rest of the tale," observed the Clubwoman, grimly. "Did he make her take her shoes, commonsense things?" queried the Frivolous Young Thing, plaintively. "That would be beastly of him."

"Not exactly that," laughed the Clubwoman. "But the ownership tone in which he said, 'I want a pair of shoes for my wife,' very nearly told the tale. She was a meek little woman and she dropped passively into a chair and said nothing. The clerk brought a pair, but before the poor woman had even a chance to glance at them, her husband waved his hand and said, 'Take them away. She doesn't want that kind.' And then the clerk came in strong, and I wanted to get up and give three cheers, only I suppose if I had, I would have been hailed off for a militant."

"What did he do?" asked the Frivolous Young Thing, eagerly. "He just straightened up a bit, looked the man in the eye and said very quietly and calmly, 'I thought the lady was buying the shoes.'"

"Good for him!" exclaimed the Frivolous Young Thing, clapping her pretty dimpled hands. "I'm going there to buy my shoes. What did the woman's husband do?"

"He just wiled. I was a little afraid there might be a scene, and the clerk he reprimanded for impertinence. But as is very often the case, the man was nothing but a bully. And when he met somebody with real nerve, he just threw up his hands. He looked at the clerk a second and then he said, 'Gee, what kind do you want?' The poor little thing had looked rather apprehensive when the clerk spoke, but she chirped up now and explained the kind she would like. I wish, though, she would take the tip and not let herself be imposed on any longer. You don't see that kind of husband very often nowadays; but once in a while you run across him. It certainly makes my blood boil, though, to see a man leading a woman that way and to see a woman permitting it. That sort of conduct belongs to the Middle Ages."

"I shan't let my husband get the upper hand that way," observed the Frivolous Young Thing, twisting a ring. "You can always manage a man, if you go about it in the right way."

"Huh!" snorted the Clubwoman, still indignant at the memory of the little, mistreated wife. "If both of you have ordinary, common sense, why don't you each manage yourself, and let the other alone. Neither one requires any special management before marriage, why is it necessary after. I dare say that woman could buy a far better pair of shoes for herself than he could. No one person is the sum of all wisdom. Let the other fellow have a chance to show his, I say. Don't you try to manage your husband. Leave him alone. But don't you let him manage you, either."

But the Frivolous Young Thing refused to commit herself.

## SPEEDY TRIAL WILL BE GIVEN POLITICIANS

(ASSOCIATED PRESS TELEGRAM) Columbus, March 14.—Before Judge Dillon in the criminal court William L. Finley, chairman of the Democratic state executive committee, A. V. Abernathy, secretary of the state tax commission; Emory Lattanner, state superintendent of banks and Merle Goller, the latter's chief clerk, will be arraigned Monday morning under the indictments returned against them yesterday charging them with the solicitation of political assessments from state civil service employees.

These men have prepared for the impending struggle in the criminal court by employing the law firm of Booth, Keating, Peters & Pomeroy as counsel. Prosecutor Turner stated today that there would be no question as to a speedy trial, as he expected to push these cases on the court calendar.

# Union Labor of Newark Among First to Indorse Board of Trade's New Plan

It is a well-founded theory, that has passed from the field of any speculation, that has been demonstrated times without number right here in Newark, as well as other cities, that commercial prosperity is dependent upon the body of wage earners. IF THERE IS EMPLOYMENT FOR THEM AT REMUNERATIVE RETURN, ALL CONDITIONS MUST OF NECESSITY BE SUCH, THAT PROSPERITY IS FELT BY ALL CLASSES. While this is true as a general principle, it is particularly apparent in the cases of organized labor, and this for several reasons. In the first place THE CRAFTSMEN WHO BELONG TO UNIONS, ARE THE SKILLED MECHANICS OF ANY GIVEN TRADE, earn the best wages, live in a style befitting their condition of prosperity, and form the class which has the money to spend and does spend it.

This is always providing they can get work, which is only possible at all times, when the industries of a city are of such a varied nature, and in operation on a full time at all seasons of the year.

It is then that there is a market in which to sell his labor, and as this market is more and more diversified and enlarged, competition for this labor will of necessity raise its price, with the inevitable result that the artisan will be sure to receive the maximum wages.

There is no city in Ohio in which the trades are better organized, and a better feeling prevails generally between employer and employee than in Newark, and the members of the different unions have been the first to see the great benefit to be derived from the success of the new plan launched by the Newark Board of Trade.

They have been farsighted and wise to their best interests. Some of the local unions have already taken the plan up and endorsed it as organizations, and others have signified their intention of doing the same.

These men are to be congratulated upon their action, and the attitude they have taken. It is indicative of wise leadership, and on the part of the individual members an intelligent, independent comprehension of the great good it is aimed to accomplish for every craft, by securing new industries to widen the field of endeavor and give employment to great numbers.

The Board of Trade has abandoned all efforts along widely diverging lines, as not being in exact accord with this main purpose, which is the

one single end to be attained. It is urged upon members of trades unions to individually take up the matter as it pertains and appeals to them. Consult with Secretary Wulfoop, whose office is on the tenth floor of the Trust building. If you are interested, interest others. Call upon the secretary or call him up by phone. Give him your own name and that of any others in your neighborhood, who could be interested in this movement. By this means a working force in every part of town would soon be available to accomplish wonderful results.

There is no one in Newark who appreciates more fully the necessity of the success of the new plan than the laboring man. He has had instances in his own case, or known of others where a condition arises that makes it imperative that he find another position, maybe at different work from what he has been doing.

There is no city in Ohio where the general standard of wages paid in every industry is higher than in Newark, and it is the aim of the Board of Trade by the new plan to keep this up. To secure new industries is to not only expand the field for the employment of labor but to diversify it so that the wage earner can have more than one or two chances of employment.

If Newark had more diversified industries there would be no difficulty, and he could procure work in this city.

Many of these mechanics own their own homes, have children in the schools and have many other social and business ties to bind them to this city. But they cannot find work, and leaving their families here get it in another city. Some cannot move, most do not want to and so the undesirable condition is created of a man working in a distant city while his family lives in Newark, thus necessitating the upkeep of two domestic establishments.

And so it has been said that organized labor of Newark realizes in the fullest extent the aim of the Newark Board of Trade, to expand the market for labor, and they have nobly come to the forefront in sympathetic aid in the effort.

Let others join this forward movement toward more industries, better opportunities for labor to be employed, with more money to spend for necessities and comforts of life, and the general good of all.

## LITTLE CHILD IS FATALLY BURNED

Paul Raymond Amos, age 3 years, lived but two hours, after receiving fatal burns, while his mother was absent from her home in Moull street on Friday afternoon for a short time.

Called home by the frantic cries of an older child, Mrs. Howard Amos rushed from a neighbor's home to find her little son, with his clothing burned from the body and the body blackened and writhing in pain. Dr. Harry E. Hunt was hurriedly called and an examination showed that the body was blistered from head to foot and that there was a small possibility for recovery.

No idea has been obtained as to how the child's clothes ignited, unless he had been playing with matches, for there are no open fires in the house. The burns were dressed by Dr. Hunt, but death relieved the suffering of the child two hours later.

The funeral services were held at 2 o'clock Saturday afternoon at the home, 174 Moull street, by Rev. W. D. Ward, pastor of the Central Church of Christ. Burial was made in Cedar Hill cemetery.

## Henry Siegel, Bcston, Chicago, and New York Merchant, Indicted

Henry Siegel, whose large department stores in New York failed some weeks ago, has been indicted with his partner, Frank E. Vogel, by the grand jury of New York county. The charge against them was larceny, the making of false statements regarding their stores, and the acceptance of deposits when the bank connected with the stores was in a dangerous condition. In connection with the New York stores they maintained a private bank which did a large business. Money was borrowed from the bank and used in department store business.

Since the failure an army of lawyers and investigators have been try-

ing to straighten out the matter. Depositors of New York City, whose money is tied up, have become boisterous. Twice a crowd of them has been forcibly ejected from the federal building in that city, to which they had gone for redress. Some of them went so far as to make a threat they would lay siege to one of Siegel's stores yet open and take sufficient goods from the counters to cover their deposits.

## BOOT AND SHOE WORKERS OF CITY ORGANIZE UNION

The Boot and Shoe Workers' Union of Newark and vicinity held its first regular meeting last night. The meeting was called to order by Organizer J. Hentz of Cincinnati and addressed by Henry Adams, deputy organizer of the American Federation of Labor. The outlook for a growing organization is very promising.

The following are charter members: John Fishbaugh, Wm. M. Fishbaugh, W. Spitzer, C. W. Smith, F. M. Rothwell, E. Katzmeyer, G. M. Dickmers and C. V. Harner.

## DIZZY, HEADACHY, SICK, "CASCARETS"

You're Bilious; Constipated. Clean your sluggish liver and bowels tonight while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

## "CUPID'S" HOME DAMAGED BY FIRE LOSS WAS SLIGHT

The ancestral home of Warner J. (Cupid) Devoe, automatic switch expert of the Newark Telephone company, was damaged at Mt. Vernon Thursday afternoon when the roof caught fire and burned most of the shingles off before the department there could control the flames.

When Mr. Devoe learned of the fire, his fellow employees in the switch room had some difficulty in restraining "Cupid" from seizing a fire extinguisher from the office and hoofing it northward on the B. & O. tracks to aid the fire ladders in their fight with the raging flames. He was soon made to realize that in all probability, the house would be destroyed or saved before he reached Vanatta and he reluctantly consented to leave the whole matter in the thoroughly capable hands of Chief Pickard and his understudies.

Attorney J. H. Miller has been called to Ada by the serious illness of a friend.

## PAPE'S! BREAKS A COLD AT ONCE

First dose of "Pape's Cold Compound" ends gripe misery—Tastes nice—No quinine.

Relief comes instantly. A dose taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

When two egotists get together it's a case of an I for an I.

Famous Pictures of Alaska at Auditorium Saturday and Sunday.  
Alaska Jack the noted government scout and lecturer is bringing forth the only authentic views and conditions of the land of ice and snow. A great amount of money was expended in procuring these wonderful pictures and unlike Cook or Perry he is not trying to gain publicity as an explorer. Jack London speak of "Having found" or one of those strange men that Jack London speaks of. Having lived in Alaska for over fifteen years he is especially familiar with the life of the esquimo, as well as the animal life. The lecture he gives in conjunction with the pictures shown is extremely interesting. Jack carries with him the personal effects necessary to the existence of a white man in these parts. He also carries two of the famous dogs "half wolf and dog" and will give a public street demonstration on this afternoon and night.

Great Cartoon Play Monday.  
Oscar and Adolph in "Whirly-Girls" land could well describe the latest of cartoons musical comedies. "Oscar and Adolph" which Joseph Weimer introduces to Newark theater goers on Monday, March 16, at the Auditorium. The two familiar German characters, who parade their adventures before you every day in the newspaper comics, are the center of a singing and dancing organization par excellence. With them on the stage as co-workers in laugh making are the other well known cartoon characters, Mr. Skysack from Mars, probably the most unusual conception of the cartoonist's pen, and Diana Dillpickles, that most extraordinary young woman who can turn a hand at anything from operating an aeroplane to holding down a man's position.

Rice and Cady are the funny cartoon Germans in the "Whirly-Girls" and these two comedians could well have been the original of Fred Schaefer's creations, so closely do they resemble the cartoon creatures in their stage make-up.

Oscar and Adolph, while modeled after the latest Broadway reviews, is in fact a return of the Rogers Brothers style of musical entertainment so popular several years ago. The idea of two adventurous Germans surrounded by a bevy of pretty chorus girls is what made the various Rogers Brothers' shows so sensationally successful.

"Where the Trail Divides."  
In casting about for a piece with which to live up to, his reputation as manager and producer, Mr. Primrose ran across Robert Edeson's great masterpiece "Where the Trail Divides" and as a result the patrons of the Auditorium will get one of the country's great successes for the first time at popular prices. Most theatre-goers are familiar with this play and to them it needs no introduction further than to say that it is in the hands of a most capable company, and that no expense has been spared to make the production, the most pretentious and complete of any Middle West play ever placed before the public.

Mr. Edeson's play is a partial dramatization of Will Lillibridge's novel of the same name, "Where the Trail Divides" and is a complete and masterful interpretation of all that is good within the Indian nature, bringing to light that which has been hidden for centuries from his white brethren, his soul, and his innermost feelings, wherein affairs of the heart are concerned. This attraction will be seen at the Auditorium, Tuesday, March 17th, Matinee and night.

"Stop Thief."

the presentation of "Stop Thief," the comedy-farce which has an engagement at the Auditorium, one night only, Thursday, March 19th. "Stop Thief" which is by Carlyle Moore, is unique in many respects, both in theme and treatment, and deals with the fortunes of two kleptomaniacs and a regular "crook." We meet the trio during the prologue to a marriage ceremony in a stately mansion in Providence, R. I. "Stop Thief" has been pronounced by leading New York critics as a masterpiece in comedy-farce and Detective Burns declared it to be the best "crook" play he ever saw. Through its humorous story there is interwoven a charming love romance which would alone carry any production to success and it is most delightfully told by a clever cast.

"The Girl of My Dreams."

"The Girl of My Dreams" which will be seen at the Auditorium theater Friday night, March 20th is said to bear the earmarks of an immense production, that it has all the daintiness, chicness, good taste, amusing situations and laughs that under the deft handling of Broadway producers are lifted to the dignity of a charming naturalness, that the costuming and scenic color schemes are superb and in harmony and richness and they are lavished upon a cast, not only of rarely artistic principals, but a capable chorus in beauty. A superb maid chorus opens the musical comedy whose swift current then sets in upon the arrival of the Puritan sweetheart, the lady of the lost hat and her destined escort. The play bears the distinction of having well defined characters. The music is by the famous composer the late Earl Hoschna, who is also responsible for "Three Twins," "Bright Eyes," "Madam Sherry," and "Doctor De Luxe." In "The Girl of My Dreams" he has written song hits galore. A company of 60 people will be seen here in the part.

Famous Hunt Pictures.

The management of the Auditorium takes great pleasure in announcing for Sunday matinee and night, March 22, Paul Rainey's famous African hunt pictures. These pictures ran for over a year in New York and are said to be the most wonderful ever shown. The lion, tiger, and elephant seen in their native hunts as well as the many strange animals we have never seen or heard of before. These pictures

are positively Rainey's and are endorsed by the public and press all over the country.

On Saturday, March 21, "Mary Magdelene" and Sir Walter Scott's famous classic "The Bride of Lammermoor" will be shown.

## Newark Citizenship-Its Responsibilities

Each individual has a responsibility he owes himself primarily, and his community secondarily.

The extent of that responsibility varies.

Some think their responsibility due first to the community and after that to the individual.

It all depends upon the individual view.

But when the individual has an opportunity to help himself and the community at the same time the course should be clear.

This matter of church attendance is a case in which the needs of the individual and the needs of the community are one.

It is necessary that each live up to his responsibility in the best possible way, and help to the greatest possible extent, in doing his full share, for his own benefit and for the benefit of others.

Church attendance, while a personal duty, is also a personal privilege, and must be valued as an opportunity and not merely as a duty.

Recognizing it as a privilege, as an opportunity, each should realize his personal responsibility.

## COULD NOT STAND ON FEET

**Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.**

Adrian, Mich. — "I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong." — Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in home, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

It is perhaps true that the ladies of Newark devote more attention to the matter of their personal appearance than do the ladies of any other city. Yet even in Newark the girl with a nice head of hair is always an object of admiration and frequently the envy and despair of her less fortunate sisters.

It is the intelligent use of a sanitary hair-dressing that makes all the difference. Without this, dandruff forms on the scalp; the hair lacks luster, gloss and beauty; becomes uneven, dead and finally drops out.

Hair that presents that clean, fluffy, well cared for appearance is almost always associated with Newbro's Herpicide. Fifteen years ago Herpicide was the only germ remedy for dandruff sold in America. The astonishing success of this clean, pure scalp prophylactic, with its dainty, exquisite odor, prompted the makers of other hair preparations to adopt the same claims as made for Herpicide.

The point is, don't experiment with something which may or may not be just as good as Herpicide. It isn't necessary, and will perhaps result in keen disappointment.

For the eradication of dandruff, to prevent the hair from falling out and for beautifying the hair generally, any drug or department store in Newark will sell and recommend Newbro's Herpicide—the Original Germ-Remedy for the scalp.

Applications obtained at the better hair shops. Two sizes, 50c. and \$1.00. Sold and guaranteed at all drug stores. Send for trial bottle and booklet—SEE COPY.
